IC - A61K-007/00  
AB - J01143812 Cosmetic material contains silicone oil, solid wax, polyhydric alcohol and one or more polyoxyalkylene modified organopolysiloxane of formula (1), (2), (3) or (4) contained. (Where R = 1-3C alkyl or phenyl R' = H or 1-12C alkyl, p = 1-5, m = 5-100, n and m = integer 1-50 t and y = integer 0-50).  
USE - The material is smoothly spread to the skin with moisturised feeling. It has good stability. (10pp Dwg. No. 0/0)

IC - A61K-007/00  
AB - J01079104 Material contains silicone oil, solid wax, water and at least one polyoxyalkylene denatured organo polysiloxane of formula (1), (2), (3) and (4). The moisture content is at least 5 wt. %. In the formulae, R = 1-3C alkyl or phenyl, R' = H or 1-12C alkyl p = 1-5, m = 5-100, n and x = 1-50 and t and y = 0-50.  
USE/ADVANTAGE - Material is smoothly spread on the skin. A high amt. of moisture is compounded without volatilisation of the water. The material is stable. (10pp Dwg. No. 0/0)
